

AKASH M S

DATA ANALYST • EXCEL • SQL & POSTGRESQL • POWER BI • TABLEAU • STATISTICS

Thrissur, Kerala, India | +91 99951 06545 | akashmsubramanian5@gmail.com | [LinkedIn](#) | [GitHub](#)
Open to relocation: Kochi, Kozhikode, Thrissur, Remote

PROFESSIONAL SUMMARY

Data Analyst with strong computer proficiency across Microsoft Excel, SQL (PostgreSQL), Power BI, and Tableau, and a practical, problem-solving approach to data quality and workflow issues. Experienced in translating business requirements into clear, decision-ready reports and dashboards, and communicating findings to cross-functional stakeholders. Analyzed datasets spanning 10,000+ records across logistics, retail, and sales domains, applying statistical methods — hypothesis testing, correlation analysis, confidence intervals — to validate insights and support data-informed decisions.

CORE COMPETENCIES

Microsoft Excel: Pivot Tables, Power Query, XLOOKUP/VLOOKUP, Conditional Formatting, KPI Scorecards, Dashboards
PostgreSQL / SQL: Joins, CTEs, Window Functions, Views, Aggregations, Subqueries, Database Normalization
Statistics & Analysis: Descriptive & Inferential Statistics, Hypothesis Testing, Probability, Correlation Analysis, Central Limit Theorem, Confidence Intervals
Power BI: DAX, Power Query (ETL), Star Schema Modeling, Drill-Through, Interactive Reporting
Tableau: Advanced Calculations, Dashboard Development, KPI Design, Data Storytelling
Python: Pandas, NumPy, Matplotlib, Seaborn, Data Cleaning, Exploratory Data Analysis

PROFESSIONAL EXPERIENCE

Data Analytics Intern — Bridgeon Solutions

Aug 2025 – Present

Malappuram, Kerala, India

- ▶ Partnered with cross-functional teams to translate business requirements into analytical deliverables, presenting findings and recommendations to stakeholders.
- ▶ Executed end-to-end analytics workflows — data collection, cleaning, transformation, modeling, visualization, and dashboard deployment — using Excel, SQL, Power BI, and Tableau.
- ▶ Built 6+ interactive dashboards featuring KPI cards, drill-down analysis, and cross-filtering for sales, logistics, and operations reporting.
- ▶ Applied statistical methods — hypothesis testing, correlation analysis, and confidence intervals — to validate data-driven insights.
- ▶ Architected star-schema data models with optimized fact and dimension tables, improving reporting performance and enabling scalable BI solutions.
- ▶ Queried and analyzed large transactional datasets in PostgreSQL using joins, CTEs, window functions, aggregations, and normalization techniques.

PROJECTS

Retail Sales Dashboard | Microsoft Excel

- ▶ Designed an interactive dashboard using Pivot Tables, slicers, XLOOKUP, and conditional formatting to analyze sales performance across regions and categories.

Logistics Analytics Dashboard | Tableau

- ▶ Built a 4-page interactive dashboard analyzing ~4,900 orders, covering logistics revenue, delivery performance, warehouse utilization, and shipping costs.
- ▶ Designed a star schema (Fact Logistics + dimension tables) with KPIs including Gross/Net Revenue, On-Time Delivery Rate, and Average Delivery Days; authored BRD, DAD, and FRD documentation.

Puma Sales Analysis Dashboard | Power BI

- ▶ Built a 5-page dashboard analyzing 5,000+ sales records using a star-schema model, Power Query ETL, and DAX measures for revenue, profit margin, and regional performance.

Nike Retail Sales Analysis | PostgreSQL

- ▶ Normalized 10,000+ retail transactions into relational tables and applied joins, CTEs, window, and ranking functions to surface profitability and demand trends.

EDUCATION

B.Sc. Information Technology — University of Calicut, Kerala, India

2022 – 2025
